

### ***Middle and high school (grades 7-10)***

Intermediate and secondary education consists of four years, which are normally completed between the ages of twelve and sixteen.

The goal of middle and high school education is to ensure that students :

- acquire the fundamental elements of culture, especially in its humanistic, artistic, scientific-technological and motor aspects;
- develop and strengthen study and work habits and healthy lifestyles, preparing them for entry into post-secondary education or the workforce
- be trained to exercise their rights and obligations as citizens.
