

Language Assistants:
Open up a

world of language

learning for your pupils

Do you want to significantly increase your pupils' language skills? Are you ready to enrich and raise the standards of your school's curriculum?

Language Assistants are native speakers of French, Spanish, German, Italian, Mandarin, Russian and Irish from 16 countries worldwide. Their presence in your classroom can help to raise the standards of your students' language learning, an essential skill in today's global economy.

What are the benefits to you?

1. Language Assistants can work in your school from 12–18 hours a week and **can help to update your teachers' knowledge** of the target language and culture.
2. Costs can be shared between up to three schools reducing your investment to as little as £2,300 per school on average.
3. They help students to gain confidence in **speaking, understanding and enjoying** another language.
4. They can work across the curriculum, develop school projects and set up international links.
5. By taking part in the programme, your school becomes eligible for the foundation level of the British Council International School Award.

How do you apply?

Apply online:
